## Global displaced population at end-2015

The global displaced population at the end of 2015 was 65.3 million, according to UNHCR.<sup>1</sup> This was the highest number recorded since the aftermath of World War II. It comprised:

- **16.1 million refugees** outside their home countries
- **5.2 million Palestinian refugees** inside and outside Palestinian territories registered with the UN Relief and Works Agency for Palestine Refugees in the Near East (UNRWA)
- **3.2 million asylum seekers** outside their home countries whose applications had not yet been decided by the end of 2015
- **40.8 million internally displaced persons** inside their home countries

Since 2011 the number of forcibly displaced people in the world has sharply risen every year. From 2014 to 2015 alone, it rose by 10 percent, from 59.5 to 65.3 million. This increase included 1.7 million more refugees (including 1 million new Syrian refugees), 1.4 million more asylum seekers with pending claims, and 2.6 million more internally displaced persons.<sup>2</sup>

According to UNHCR, the main single driver behind the recent increase was the conflict in Syria, but a series of other crises and conflicts also led to new displacement. These included new or reignited conflicts in Iraq, Nigeria, Burundi, Libya and Niger, and older unresolved crises in Afghanistan, South Sudan, the Democratic Republic of Congo, the Central African Republic and Yemen.<sup>3</sup>

UNHCR definition of “refugee” (16.1 million):

“Refugees include individuals recognized under the 1951 Convention relating to the Status of Refugees, its 1967 Protocol, the 1969 Organization of African Unity (OAU) Convention Governing the Specific Aspects of Refugee Problems in Africa, those recognized in accordance with the UNHCR Statute, individuals granted complementary forms of protection, and those enjoying temporary protection. The refugee population also includes persons in refugee-like situations.”<sup>4</sup>

### World: Top 10 nationalities of refugees at end-2015

Source: UNHCR<sup>5</sup>

Country	No. of refugees
1. Syria	4.9 million
2. Afghanistan	2.7 million
3. Somalia	1.12 million
4. South Sudan	778,700
5. Sudan	628,800
6. D.R. Congo	541,500
7. Central African Rep.	471,100
8. Myanmar/Burma	451,800
9. Eritrea	411,300
10. Colombia	340,200
<b>TOTAL:</b>	<b>12.3 million</b> (of 16.1 million)

This ranking does not include 5.2 million Palestinian refugees inside and outside Palestinian territories registered with UNRWA (UN Relief and Works Agency for Palestine Refugees in the Near East) who have been the largest group of refugees for decades.

It also does not include people who were internally (inside their home countries) displaced or who had asked for asylum in other countries and had not yet received a decision at the end of 2015.

<sup>5</sup> UNHCR, [Global Trends. Forced Displacement in 2015](#), 20 June 2016, p. 16.

### World: Top 10 countries hosting refugees at end-2015

Source: UNHCR<sup>6</sup>

The ten countries hosting the largest numbers of refugees were in developing regions based on [UN statistical classification](#), with five located in poor sub-Saharan Africa.

Country	No. of refugees
1. Turkey	2.5 million
2. Pakistan	1.6 million
3. Lebanon	1.1 million
4. Iran	979,400
5. Ethiopia	736,100
6. Jordan	664,100
7. Kenya	553,900
8. Uganda	477,200
9. D.R. Congo	383,100
10. Chad	369,500
<b>TOTAL</b>	<b>9.3 million</b> (of 16.1 million)

Altogether, countries in developing regions hosted 13.9 million (86 percent) of the world's total refugee population, compared with 2.2 million (14 percent) hosted in developed regions. According to the UN's classification, the developed regions are Europe, North America, Japan, Australia and New Zealand.

### World: Top 10 countries by number of hosted refugees per inhabitant at end-2015

Source: UNHCR<sup>7</sup>

Country	No. of refugees/ 1,000 inhabitants
1. Lebanon	183
2. Jordan	87
3. Nauru	50
4. Turkey	32
5. Chad	26
6. Djibouti	22
7. South Sudan	21
8. Mauritania	19
9. Sweden	17
10. Malta	17

## World: Top 10 countries recording new asylum claims in 2015

Source: UNHCR<sup>8</sup>

Country	No. of individual claims	Share
1. Germany*	441,900	22 %
2. US	172,700	8.5 %
3. Sweden	156,400	7.7 %
4. Russia**	152,500	7.5 %
5. Turkey***	133,300	6.5 %
6. Austria	85,800	4.2 %
7. Italy	83,200	4.1 %
8. Hungary****	74,200	3.6 %
9. France	74,200	3.6 %
10. South Africa	62,200	3.1 %
Other	603,600	30 %
<b>TOTAL</b>	<b>2,040,000</b>	<b>100 %</b>

\* Germany recorded the arrival of 890,000 asylum seekers in 2015,<sup>9</sup> but its asylum authority was able to accept only 441,900 claims, the remaining claims were processed in 2016.

\*\* 98 percent of these claims were submitted by Ukrainians. Before the conflict in Ukraine, the number of asylum claims in Russia never exceeded 5,000 per year, according to UNHCR.

\*\*\* Claims registered by UNHCR in Turkey. They generally exclude Syrians who are protected under a separate regime in Turkey.

\*\*\*\* Adjusted for claims of refugees who then moved on and submitted claims elsewhere.

**Note:** The figures quoted here are new asylum applications lodged at first-instance. UNHCR had asked the reporting member countries to exclude repeat claims, reopened cases and appeals. (Repeat claims are claims submitted by the same person for a second or more times in the same country after the previous application/s had been rejected with all appeals possibilities exhausted). Eurostat numbers usually provides figures including repeat claims, so its numbers are higher.

<sup>8</sup> UNHCR, [Global Trends. Forced Displacement in 2015](#), 20 June 2016, pp. 37-40.

<sup>9</sup> German Interior Ministry, [890.000 Asylsuchende im Jahr 2015](#) (890,000 asylum seekers in 2015), press release, 30 September 2016.

## World: Recognition rates and claims in selected countries in 2015

Source: UNHCR<sup>10</sup>

Country	New claims received	Decisions made	Refugee status or complementary protection given	Recognition rate
<b>Turkey*</b>	133,320	15,341	14,532	<b>95 %</b>
<b>Sweden</b>	156,354	39,552	31,338	<b>79 %</b>
<b>Norway</b>	30,521	7,953	6,012	<b>76 %</b>
<b>Canada</b>	16,562	12,554	8,478	<b>68 %</b>
<b>USA</b>	172,739	45,077	29,565	<b>66 %</b>
<b>Germany</b>	441,899	219,550	132,058	<b>60 %</b>
<b>Austria</b>	85,798	30,043	16,891	<b>56 %</b>
<b>Australia</b>	12,231	4,326	2,377	<b>55 %</b>
<b>Switzerland</b>	39,523	25,400	13,486	<b>53 %</b>
<b>New Zealand</b>	352	287	133	<b>46 %</b>
<b>Italy</b>	83,243	71,344	29,614	<b>42 %</b>
<b>Greece</b>	11,352	9,583	4,027	<b>42 %</b>
<b>UK</b>	38,878	36,557	13,902	<b>38 %</b>
<b>France</b>	74,185	79,361	21,441	<b>27 %</b>
<b>South Korea</b>	5,711	3,032	234	<b>7.7 %</b>
<b>Japan</b>	7,586	3,430	43	<b>1.3 %</b>

*\* These are the numbers from refugee status determination conducted by UNHCR, which is linked to resettlement. UNHCR selects only cases for which it sees a resettlement chance, which explains the small number of decided cases and the high recognition rate.*

**Note:** The applications are new applications (excluding repeat claims, reopened cases and appeals). The decisions are first-instance decisions (excluding reviews and judicial appeals).

The recognition rates are not necessarily an indication of the generosity of the countries since the nationalities of the claimants differ. For example, Germany decided a high number of Syrian cases (42 percent of all decisions), who virtually all receive protection, while the share of decided Syrian cases in France was only 4 percent. Among the top countries of decided cases in France were many with low recognition rates, such as Haitians, Kosovars and Bangladeshis.<sup>11</sup>

<sup>10</sup> ESI calculations based on the separate [Annex](#), Table 9, to UNHCR, Global Trends. Forced Displacement in 2015, 20 June 2016.

## World: Resettlement of refugees in 2015

Source: UNHCR<sup>12</sup>

Traditionally UNHCR has helped resettle refugees to countries that offer them permanent residence and integration. The beneficiaries are highly vulnerable cases whose specific needs cannot be met in the country where they find themselves. In 2015, 107,050 refugees were admitted, according to resettlement arrival statistics provided by 23 states. A total of 33 states had expressed their willingness to participate in resettlement programmes (compared with 27 in 2014).

### Top eight countries admitting resettled refugees in 2015

Country	Resettled refugees (arrivals)	Share
1. US	66,517	62 %
2. Canada	20,010	17 %
3. Australia	9,399	9 %
4. Norway	2,383	2 %
5. Sweden	1,902	2 %
6. UK	1,864	2 %
7. Finland	1,007	1 %
8. New Zealand	808	1 %
Others	3,161	3 %
<b>TOTAL</b>	<b>107,051</b>	<b>100 %</b>

Among the refugees resettled in 2015 were 19,500 citizens of Myanmar, 13,800 Syrians, 10,700 citizens of the Democratic Republic of Congo, and 8,400 Somalis.

---

<sup>12</sup> UNHCR, [Global Trends. Forced Displacement in 2015](#), 20 June 2016, pp. 25-26, and [Annex](#) to this report, Table 23.

## World: Resettlement historically

UNHCR has consistently called on states to offer resettlement places as the resettlement of refugees is a safe and legal pathway to protection. However, the number of resettled refugees per year has actually decreased since the early 1990s, with the US always accounting for the lion's share.

Source: [UNHCR Statistical Yearbook 2014](#), 8 Dec. 2015, p. 43.

In recent years, there has been a slight improvement, but numbers are still very low:

### Resettled refugees 2010 to 2015

Source: UNHCR<sup>13</sup>

Year	Resettled refugees (arrivals)
2010	98,800
2011	79,800
2012	88,600
2013	98,400
2014	105,200
2015	107,100

## EU: Refugees resettled in the EU 2010-2015, by country and year

Source: Eurostat<sup>14</sup>

Although the EU belongs to the most developed regions of the world, its contribution to the global resettlement effort is modest. In 2015, the EU resettled 8,155 refugees, which accounts for 8 percent of all resettled refugees in the world. There is also a stark gap between the different EU countries, with some not resettling at all and others resettling only little.

	2010	2011	2012	2013	2014	2015	TOTALS

<sup>14</sup> [Eurostat interactive database](#), Resettled persons by age, sex and citizenship, Annual data (rounded), code [migr\_asyresa], accessed 26 January 2017.

## EU: A new resettlement effort launched in 2015

In July 2015, EU member states agreed to increase, on a voluntary basis, the number of refugees they resettle to 18,415 over two years, and to share them between 27 EU member states (all except Hungary which refused to offer any places).<sup>15</sup> For this, they receive financial support from the EU budget of 6,000 Euro per resettled refugee (10,000 Euro in special cases). While the commitment represents an annual increase by more than 40 percent above the 2014 level (6,550 resettled refugees), in absolute numbers it is just an additional 2,658 people per year.

The four Schengen-associated countries Iceland, Liechtenstein, Norway and Switzerland pledged to resettle 4,089 people during this period, with Norway alone offering 3,500 places, so the declared overall target is “more than 22,000 resettlements in two years”.

In parallel, EU member states also committed to resettle Syrian refugees from Turkey under the EU-Turkey refugee agreement of 18 March 2016.<sup>16</sup> The number must, as a minimum, be equal to the number of refugees and migrants returned from Greece to Turkey (so far 815<sup>17</sup>), but should exceed it significantly under a Voluntary Humanitarian Admission Scheme with Turkey, which is yet to be launched. If this scheme is implemented, it could dramatically increase the number of refugees resettled in the EU.

From around mid-2015 until 5 December 2016, EU member states had resettled 10,663 refugees of the 18,415 resettlements promised until mid-2017; or 13,887 of 22,504 if the four Schengen-associated countries are included ((see table on the next page).

Please note that several EU countries also have national admission schemes in addition to the pledges they made in the EU context. The UK intends to resettle up to 20,000 Syrian refugees until the end of the current UK parliament in 2020, and Ireland has committed to accept 2,900 people through UNHCR or from other EU countries.<sup>18</sup> Three German federal states also continue to admit Syrian refugees under Germany’s Humanitarian Admission Programmes (HAP) under which 20,000 Syrian refugees were resettled by the federal government and German Länder between 2013 and 2015.<sup>19</sup>

## EU: The 2015 refugee crisis

In recent years, refugees and migrants who arrive in the EU by illegally crossing borders have used predominantly two routes: the Eastern Mediterranean route (mainly from Turkey to Greece by land or sea) and the Central Mediterranean route (mainly from Libya to Italy by sea).<sup>23</sup>

### Illegal border crossings into the EU 2009-2016

Source: Frontex<sup>24</sup>

	Eastern Med. route (Greece)	Central Med. route (Italy)	Other routes*	Total*
2009	39,975 65 %	11,043 18 %	10,242 17 %	61,260
2010	55,688 84 %	4,450 7 %	6,245 9 %	66,383
2011	57,000 43 %	64,300 49 %	9,800 8 %	131,100
2012	37,200 61 %	15,200 25 %	8,200 14 %	60,500
2013	24,800 32 %	45,300 58 %	8,600 11 %	78,700
2014	50,800 22 %	170,700 74 %	9,300 4 %	230,800
2015	885,400 84 %	154,000 15 %	10,000 1%	1,049,400
2016	182,534 49 %	181,126 48 %	10,658 3 %	374,318

*\* In this table, the “other routes” and totals do not include detections of illegal border crossings on the Western Balkan route since virtually all refugees and migrants detected there had already entered, and then again left, Greece or Bulgaria before they reached the Western Balkans, so they would be double-counted. They also do not include the circular route from Albania to Greece, which is used by Albanians who go to Greece for seasonal work and then return again to Albania.*

Frontex believes that virtually all illegal crossings of EU borders are detected.

**Note** that many asylum seekers and migrants reach the EU legally, on a visa or benefitting from a visa-free travel regime. They then claim asylum or stay on illegally after the expiry of the visa or the three-month period that travellers under a visa-free regime are allowed to stay in the EU.

<sup>23</sup> The Eastern Mediterranean route encompasses detections at the Greek sea borders, the Greek and Bulgarian land borders with Turkey, and the Cypriot sea borders. The Central Mediterranean route encompasses detections at the Italian and Maltese sea borders.

<sup>24</sup> ESI calculations based on Frontex data. For the data on detections of illegal crossings of EU borders 2011-2015, see [Annual Risk Analysis 2016](#), 5 April 2016, p. 17; for the year 2016, see [Frontex Migratory Routes Map](#), accessed 30 January 2017.

## Crossings of Greek-Turkish land and sea borders 2007-2016

Source: Hellenic Police<sup>25</sup>

In the Eastern Mediterranean region, pressure has been alternating between the Greek-Turkish sea border in the Aegean and the Greek-Turkish land border.

A peak in illegal crossings of the land border was reached in 2011; in August 2012 then, a combination of measures by Greece and the EU and intensified cooperation between the Greek and Turkish authorities brought the situation under control. As a result, 2013 became the year with the lowest number of crossings from Turkey to Greece in a decade. However, already then the number of crossings by sea had started rising, to reach in 2015 a record of 873,000.

From April 2016 on, the numbers started falling again as a result of the EU-Turkey refugee agreement concluded on 18 March 2016.

Year	Crossings of all Greek-Turkish borders	Of those, by sea	Of those, by land
2007	33,600	16,800	16,800
2008	44,600	30,100	14,500
2009	36,500	27,700	8,800
2010	53,300	6,200	47,100
2011	56,000	1,000	55,000
2012	34,100	3,700	30,400
2013	12,600	11,400	1,100
2014	45,400	43,500	1,900
2015	876,200	872,500	3,700
2016	182,500	174,400 (Jan.-Nov.)	3,100 (Jan.-Nov.)

<sup>25</sup> Hellenic Police, [Statistical data on migration](#) 2007-2016 (in Greek). Frontex uses the same data. ## The year 2015

The year 2015 was unique. For a few months in the second half of 2015 until early 2016, refugees and migrants enjoyed almost unimpeded passage from Turkey to countries in northern Europe such as Austria, Germany and Sweden. In fact, governments along the route and NGOs helped them travel, offering supplies and free transportation. The only obstacle was the dangerous crossing of the Aegean Sea, where 806 refugees lost their lives in 2015.

Pressure started rising earlier in the year when it became apparent that there would be no quick end to the conflict in Syria and when many of the then 1.7 million Syrian refugees in Turkey decided to look for countries that would allow them to build a new future for themselves. While Turkey had generously opened its doors to Syrian refugees, the conditions there did not provide a long-term solution since Syrian refugees were not permitted to work and most Syrian children had no access to schooling.

The new left-wing government in Greece did not put up much resistance to the growing influx of refugees, simply allowing them to move on. The governments on the Western Balkan route, soon overwhelmed by the numbers, also adopted a wave-through approach. As the numbers of refugees crossing the Aegean Sea from Turkey to Greece kept rising, smugglers were offering ever lower prices, and no smugglers were needed anymore to pass through the Western Balkans. This in turn attracted ever more refugees and migrants who were now setting off from countries further away such as Afghanistan. Another pull factor was a welcoming attitude in Germany for which the new term “*Willkommenskultur*” was coined. German citizens greeted arriving refugees with cheers and welcome signs and helped them settle in, and Chancellor Angela Merkel announced that Germany had to live up to its humanitarian responsibilities and would be able to master this challenge – “*Wir schaffen das*”, “We can do this.”<sup>26</sup>

Meanwhile, refugees also used the route to Italy, but, in comparison, in much smaller numbers.

## The end of the 2015 “crisis”

During the unprecedented and initially uncontrolled influx of refugees and migrants into Europe, EU leaders were scrambling for solutions – and gradually found them, some in line with international refugee law, others on the border line, some successful, others less so.

In May 2015, they agreed to establish “hotspots” in Greece and Italy (currently five in Greece and four in Italy) where incoming refugees and migrants are registered, screened and finger-printed with help from Frontex, the European Asylum Support Office (EASO) and Europol. This is now working well. In September 2015, EU leaders agreed to relocate ultimately 160,000 asylum seekers with a high chance of recognition from Greece and Italy to other EU countries. This has been resisted by some EU countries and is not a success (see next two pages).

In the summer of 2015, EU leaders also started negotiating with Turkey about how Turkey could help stem the inflow of refugees. In the end, this led to the EU-Turkey refugee agreement from 18 March 2016.<sup>28</sup> Turkey agreed to take back all refugees and migrants, including asylum seekers, who reach Greek islands. In turn, the EU committed to resettle Syrian refugees from Turkey, to provide 6 billion Euro in assistance to improve the conditions for refugees in Turkey, and to accelerate an ongoing visa liberalisation process with Turkey. Although there are many implementation problems,<sup>29</sup> the EU-Turkey deal has proven effective: numbers started dropping as soon as it was reached (see table below).

The EU-Turkey refugee deal coincided with the closure of the Western Balkan route: from 8 March 2016 on, the governments of Macedonia, Serbia, Croatia and Slovenia had closed their borders to refugees, with Greece starting to take back all refugees that manage to reach Macedonia.

During 2015, many EU countries also reintroduced border controls within the Schengen area and tightened their asylum laws in order to deter refugees.

## The EU relocation scheme

In May 2015, the European Commission proposed to oblige EU member states to relocate 40,000 asylum seekers with a high chance of recognition from Greece and Italy.<sup>31</sup> However, EU governments agreed to do this only on a voluntary basis. By July they had allocated among themselves only 32,256 asylum seekers<sup>32</sup> – there were no “takers” for the remaining 7,744 people. In September 2015 then, as the refugee influx did not show any sign of abating, they finally agreed to make the relocation of the 32,256 refugees mandatory<sup>33</sup> and to relocate, also on a mandatory basis, another 66,000 (50,400 from Greece, 15,600 from Italy).<sup>34</sup> In total, this makes 98,256 relocations.

There is agreement in principle to distribute the remaining 7,744 places from the original 40,000, and to allocate an additional 54,000 once the envisaged 98,256 relocations have been implemented. The total of all these numbers is 160,000, which is the figure usually mentioned. However, relocations have taken place much more slowly and in far smaller numbers than foreseen, so it is not clear if and when the envisaged additional distributions will be decided.

See table on next page.

## EU: Deaths in the Mediterranean 2015 and 2016

Source: Frontex and IOM<sup>36</sup>

Crossing the Central Mediterranean sea and the Aegean sea is dangerous. Unscrupulous smugglers provide refugees and migrants with boats that are hardly seaworthy, and in addition they overload them. Many boats deflate or capsize, with refugees drowning. The passage from Libya to Italy is much longer so that the death toll on this route is proportionally higher.

	<b>Eastern Med. route (Greece)</b>	<b>Central Med. route (Italy)</b>
2015 arrivals	885,400	154,000
2015 deaths	806 (0.1 %)	2,869 (1.9 %)
2016 arrivals	182,500	181,000
2016 deaths	434 (0.2 %)	4,579 (2.5 %)

## EU: Top nationalities of arrivals in Greece and Italy in 2016

Source: UNHCR<sup>37</sup>

The nationalities of the refugees and migrants using the Eastern and Central Mediterranean migration routes are different, so closure of one route does not mean that the refugees switch to the other route. This is difficult for geographical reasons.

<b>Greece</b>		<b>Italy</b>	
Syria	47%	Nigeria	21%
Afghanistan	24%	Eritrea	12%
Iraq	15%	Guinea	7%
Pakistan	5%	Ivory Coast	7%
Iran	3%	Gambia	7%
Other	6%	Senegal	6%
		Mali	5%
		Sudan	5%
		Bangladesh	4%
		Somalia	4%
		Other	22%

<sup>36</sup> The arrivals are based on Frontex data: for 2015, see [Annual Risk Analysis 2016](#), 5 April 2016, p. 17; for 2016, see Frontex, [Fewer migrants at EU borders in 2016](#), press release, 6 January 2017. For deaths, see IOM/Missing Migrants Project, [Mediterranean](#), accessed 25 January 2017.

**EU: Nationalities of irregular migrants detected in Greece 2010 to 2016, by year**  
 Compilation by ESI based on data from the Hellenic Police<sup>40</sup>

This table shows how the number of refugees from Syria arriving in the EU rose during the past few years, but also how other nationalities in whose countries of origin the situation did not change took advantage of the open borders in 2015.

	<b>2010</b>	<b>2011</b>	<b>2012</b>	<b>2013</b>	<b>2014</b>	<b>2015</b>	<b>2016 Jan.-Nov.</b>
<b>Syria</b>	n.a.	1,522	7,927	8,517	32,520	499,495	85,678
<b>Afghanistan</b>	28,299	28,528	16,584	6,412	12,901	213,267	43,984
<b>Iraq</b>	4,968	2,863	2,212	700	1,023	91,769	28,270
<b>Pakistan</b>	8,830	19,975	11,136	3,982	3,621	27,261	12,707
<b>Albania*</b>	50,175	11,733	10,602	15,389	16,751	16,910	10,592
<b>Iran</b>	1,133	n.a.	692	317	n.a.	23,155	6,109
<b>Palestine</b>	7,561	2,065	1,718	469	622	6,350	2,028
<b>Algeria</b>	7,336	5,398	4,606	443	n.a.	1,548	1,644
<b>Bangladesh</b>	3,264	5,416	7,863	1,524	1,164	4,511	1,389
<b>Morocco</b>	1,645	3,405	2,207	442	n.a.	7,818	1,264
<b>Georgia</b>	1,456	n.a.	n.a.	568	838	n.a.	809
<b>Somalia</b>	6,525	2,238	1,765	1,004	1,876	4,583	n.a.
<b>Eritrea</b>	1,628	1,172	923	726	1,019	n.a.	n.a.
<b>Other</b>	9,704	n.a.	n.a.	3,363	4,828	14,804	6,702

*\* Albanians are mostly circular migrants – they come to Greece for seasonal work, but then go back to Albania. Their numbers dropped from 2011 on because the EU abolished the short-stay visa requirement for Albanians in December 2010.*

<sup>40</sup>

Hellenic Police, [Statistical data on migration](#) (in Greek), accessed 25 January 2017.

## EU: Asylum claims & recognition rates in the EU 2010 to 2016

Source: Eurostat<sup>41</sup>

Year	Claims received	Decisions made	Recognition rate
2010	260,835	223,790	25 %
2011	309,820	237,975	25 %
2012	336,015	289,035	31 %
2013	432,055	323,980	33 %
2014	627,780	367,435	46 %
2015	1,323,465	593,140	52 %
2016	1,192,275 (incomplete <sup>42</sup> )	755,760 (Jan.-Sept.)	61 % (Jan.-Sept.)

The recognition rate has been rising due to the increasing share of asylum seekers who qualify for protection such as Syrians, Iraqis and Eritreans.

**Note:** In 2015 and 2016, there is a wide gap between the number of claims received and the number of asylum seekers who arrived in the EU in these two years. In 2015, the asylum authorities of the most popular destination countries were not able to receive and process the claims of all the arriving asylum seekers; Germany, for example, recorded the arrival of 890,000 asylum seekers in 2015,<sup>43</sup> but its asylum authority was able to accept only 441,900 claims, the remaining 450,000 claims were processed in 2016 unless the asylum seekers had moved on. The number of claims received in 2016 is therefore far higher than the number of refugees who arrived in the EU in that year.

The claims cited here include both new and repeat claims (submitted by the same person for a second or more times after the previous application/s had been rejected with all appeals possibilities exhausted or expired). The decisions are only decisions at first instance, excluding decisions in review and appeal cases. The recognition rate covers the granting of refugee status in line with the Refugee Convention, subsidiary protection and different forms of humanitarian protection. See explanation of the terms in the Annex.

<sup>41</sup> [Eurostat interactive database](#), Asylum and new asylum applicants by citizenship, age and sex, Annual aggregated data (rounded), code [migr\_asyappctza]; Asylum and first time asylum applicants by citizenship, age and sex, Monthly data (rounded), code [migr\_asyappctzm]; First instance decisions on applications by citizenship, age and sex, Annual aggregated data (rounded), code [migr\_asydcfstq]; and First instance decisions on applications by citizenship, age and sex, Quarterly data (rounded), code [migr\_asydcfstq], all accessed on 23 January 2016.

<sup>42</sup> This is the total of monthly applications in 2016, but only two out of 28 EU countries had submitted their data for December, 13 for November, and 26 for October.

<sup>43</sup> German Interior Ministry, [890.000 Asylsuchende im Jahr 2015](#) (890,000 asylum seekers in 2015), press release, 30 September 2016.

<sup>44</sup> [Eurostat Interactive Database](#), Asylum and first time asylum applicants by citizenship, age and sex, Annual aggregated data (rounded), code [migr\_asyappctza]. For 2016: Asylum and first time asylum applicants by citizenship, age and sex, Monthly data (rounded), code [migr\_asyappctzm], both accessed 26 January 2017.

<sup>45</sup> This is the total of monthly applications in 2016, but only Germany and Slovenia had submitted their data for December, 13 out of 28 EU countries for November, and 26 for October. The data for the remaining months was complete.

## EU: Return of irregular non-EU nationals 2008-2015

Under EU law, authorities must issue return decisions to non-EU nationals staying illegally on their territory, including failed asylum seekers, if they want to terminate their stay and return them to their countries of origin or other countries willing to accept them. They must also provide them with a period of 7 to 30 days to leave voluntarily.<sup>46</sup> A return decision is “an administrative or judicial decision or act, stating or declaring the stay of a third-country national to be illegal and imposing or stating an obligation to return”.<sup>47</sup> Most voluntary departures are financially assisted. If an individual under order to leave fails to do so, they can be deported.

According to the available data, only 42 percent of all return orders have resulted in the departure of the individuals concerned in recent years.

An average 86 percent of all return decisions concerned return to a country outside the EU, the remaining 14 percent to another EU country.

## Returns from EU member states in 2015 by country and type of return

Source: Eurostat<sup>49</sup>

EU countries use different ways to verify whether a non-EU national under obligation to leave has actually left their territory. They use data from the agencies assisting voluntary returns and carrying out forced returns, but they usually also request the leaving individuals to provide evidence of their departure either by handing in a specific document at the border or, upon arrival at the destination, at a consulate. If they do not, they threaten to impose a Schengen-wide entry ban. However, some EU countries are not able to separate those who had assistance from those who were returned by force, this is why the data on voluntary and enforced return is not available for all EU countries.

	Persons returned	Voluntary return	Enforced return	Type of return unknown
<b>Germany</b>	55,340	-	-	55,340

## **Annex: Terminology concerning international protection in the EU**

**Refugee status - in response to persecution** - is the highest form of international protection. Under EU asylum legislation, which is based on the 1951 UN Geneva Convention relating to the Status of Refugees and its 1967 Protocol, EU member states are committed to offering refugee status to foreign nationals that have "a well-founded fear of being persecuted for reasons of race, religion, nationality, political opinion or membership of a particular social group" in their home country".<sup>50</sup>

**Subsidiary protection - in response to risks of serious harm** - is accorded to people who face "risks of serious harm" in their home countries, but who do not meet the UN/EU definition of refugee. The relevant EU Directive defines "serious harm" as "(a) death penalty or execution; or (b) torture or inhuman or degrading treatment or punishment of an applicant in the country of origin; or (c) serious and individual threat to a civilian's life or person by reason of indiscriminate violence in situations of international or internal armed conflict."<sup>51</sup>

**Humanitarian shelter:** Some asylum seekers are allowed to remain in an EU country "for reasons not due to a need for international protection, but on a discretionary basis on compassionate or humanitarian grounds".<sup>52</sup> As it is at the discretion of EU member states to grant this status, it is regulated by national legislation. Most often it is offered to people with medical problems that cannot be treated in their home country. Eurostat does not have complete data on it since not all member states offer this type of protection or because it is granted by authorities other than the asylum authorities.<sup>53</sup>

**At first instance,** asylum claims are decided by administrative bodies, that is the asylum authorities. Some EU countries offer the possibility of an administrative review if a rejected asylum seeker wishes to pursue it. All rejected asylum seekers also have a right of appeal before a court, so this is the next instance. In some EU countries, this is the final instance, while others offer the possibility of one or more appeal against the first court decision, depending on their judicial systems.
